

BUSINESS IS GOOD

Stable and Sane Advance Shown
by Manufacturing Head.

Reports by 30,000 Manufacturers Are All Up to Date.

New York, May 10.—Business and trade conditions throughout the United States as reported by thirty thousand manufacturers to John E. Edgerton, president of the National Association of Manufacturers today, show a "stable, sane, definite and continuing advance."

The survey was made by questionnaires, answers to which were received within the last twenty-four hours so that it represents conditions as of today.

"In the steel industries today the survey shows condition classed as excellent among 6 per cent of our membership; 35 per cent as good; 52 per cent as fair, and 17 per cent as poor," he said. "In the textile industry, 70 per cent of them report conditions running from fair to excellent and 30 per cent report poor conditions. In the machine and tool industry we find 89 per cent of the replies representing conditions fair to excellent and the remainder encouraging."

"In three industries where retrenchment is ordinarily acutely felt—automobile, jewelry and leather—the

showing is not by any means gloomy, altho not so good as in other lines. From the automobile trades good reports are 70 per cent; in jewelry 50 per cent and in leather 60 per cent."

North Topeka

Items for this column may be left at Petro's drug store or telephone Eleanor Kimball, 3331, before 10 o'clock or after 2. Other hours 3330.

Patience has ceased to be a virtue in the opinion of members of the North Topeka Civic club, and it decided at the regular meeting last evening, that the city ordinance against closing streets was unreasonable length of time should be enforced. The holding of trains on the Union Pacific crossing in Kansas center, was the point in question, and as the promises to relieve this situation, made in the past, have not materialized it was decided to hold a consultation with each of the three railroads concerned in establishing an interlocking system of the Union Pacific, the Rock Island and the Santa Fe, and urge the prompt installation of the system. W. H. Thomas stated that a new system of signals was to be installed by the Rock Island in a short time, which would in a measure, relieve the congestion as far as the Rock Island trains were concerned.

It was voted that a letter of condolence be sent to the family of the late D. F. Griffith, who died last week. The letter was to be signed by the members of the club in the bereavement suffered by the family in the death of the husband and father, and expressing the grief of the club in the loss of a faithful member, a good citizen and a loyal friend.

Within the North Topeka Civic club has lost by death, three of its most faithful members—D. T. Gabriel, George Roehrig and C. H. Dyak.

Clarence Kistler, chairman of the membership committee, reported that a circular letter had been prepared which would be sent to prospective members of the club a few days previous to the campaign for new members, which will be May 14-17.

North Topeka people interested in school matters, and they are in the majority, are working up over a report from reliable sources, that a change is to be made in the principalship of Grant Quincy schools. It appears that the policy of the board of education will be to place an individual principal in each school, and not have the same two schools in the hands of one person, as is the case in Quincy and Grant schools. C. Morrow being principal of each. The parents of the pupils are so well satisfied with the progress of their children under the direction of Mr. Morrow, and the harmony between the two schools since he has been principal of both schools, that they are both loath to consider a change. However, considering the appointment of an assistant principal for Grant. Similar changes are to be made in other Topeka schools where a like situation exists, it is said.

More than \$20 was made at the cafeteria supper held Tuesday evening at the Community house by women of the North Topeka Civic club.

A number of changes are contemplated in the city schools next year. The opening of a kindergarten at Quincy school will be one of special interest to parents of children living in that district. Forty names were required to be signed to the petition asking for the kindergarten, and fifty were gotten without difficulty.

The Lyman and Shorey grade school baseball teams played on the Seaman diamond yesterday afternoon. The score was 9 to 3 in favor of Shorey.

"CONNIE" ASKS FOR DIVORCE.

Says Her Cigar Manufacturer Husband Asked Her to File.

Los Angeles, May 10.—"The sooner you get a lawyer, the better it will be for both of us," Constance Talmage, noted screen actress, alleges John Pialoglou, her husband, a New York cigar manufacturer, told her, so she secured the lawyer and today her divorce complaint is on file, with his alleged remark cited as one of the grounds for divorce which is being sought because of alleged cruelty.

"Connie" claims in her complaint that her husband snubbed her, refused to talk to her at times and exhibited a jealous disposition. He objected to her fulfilling her screen contracts and wanted her to give up all work in pictures, she says.

They were married in Greenwich, Conn., September 26, 1920, and separated in April, 1921.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them, 15c and 50c.—Adv.

present, according to a letter received by G. C. Sickler, secretary of the Topeka Chamber of Commerce, from E. J. Stewart, engineer for the Kansas Inspection Bureau.

Many of the meetings were arranged in Topeka, by the Chamber of Commerce, and Stewart took occasion to compliment Sickler highly on the manner in which the Forum meeting of the Topeka Chamber, at which Stevens was the chief speaker, was handled.

Withdraws as Candidate for Lieutenant Governor of Kansas.

Senator D. A. N. Chase will not be a candidate for the Republican nomination for lieutenant governor. Senator Chase, whose home is in Pleasanton, Linn county, has made a formal statement to the effect that he has withdrawn from the race.

Withdrawal of Senator Chase means the race for the nomination of lieutenant governor will be between Ben S. Paulen, of Fredonia, and Sheffield Ingalls, of Atchison. Paulen was formerly state senator from the Neosho-Wilson county district and served six years as state oil inspector. Ingalls served as lieutenant governor in 1913.

Chase came to the senate two years ago after serving three terms in the house from Linn county. He was speaker pro tem during the session of 1919.
